

TDP's Green Triumph: Kurnool Ultra Mega Solar Park Unveiled by N Chandrababu Naidu

In a significant leap towards sustainable energy, the Telugu Desam Party (TDP) led by former Chief Minister In the field of renewable energy, Chandrababu Naidu has accomplished a great deal with the opening of the Kurnool Ultra Mega Solar Park in Andhra Pradesh.

This achievement not only solidifies TDP's commitment to environmental stewardship but also reflects the party's dedication to pioneering transformative projects for the state's development. Under the visionary leadership of [N. Chandrababu Naidu](#), the TDP has consistently championed initiatives that showcase a forward-thinking approach to governance. The unveiling of the Kurnool Ultra Mega Solar Park stands as a testament to TDP leaders' dedication to harnessing clean energy and advancing Andhra Pradesh's position as a key player in the global renewable energy landscape.

The Kurnool Ultra Mega Solar Park, spanning an impressive 1000 MW, has etched its place as the third-largest solar power park in the world at a single site. TDP's success in acquiring land for this project in a record nine months without displacing local communities is a noteworthy achievement in itself. The solar park exemplifies successful collaboration between the Andhra Pradesh state government and the central government. The partnership, facilitated by the Andhra Pradesh Solar Power Corporation Pvt Ltd (APSPCL), showcases the synergy between

state and national entities working towards a common goal of sustainable energy production. You can see the [latest TDP news](#) on their official website.

With a total investment of Rs. 7,143.77 crore, the solar park was constructed in a remarkable 24 months. Beyond its environmental impact, the project contributes to the economy by generating jobs – 282 in total, with opportunities for expert, semi-skilled, and unskilled workers. TDP's ability to foster collaboration between public and private entities is evident in the distribution of the solar park's development. Companies like GreenKo, Soft Bank Energy, Azure Power, and Adani have contributed to the overall success of the project, showcasing TDP's commitment to engaging multiple stakeholders for holistic development.

In addition to producing over 800 million units of clean electricity, the Kurnool Ultra Mega Solar Park has also prevented over 700,000 tons of carbon dioxide emissions.

Addressing water deficiency concerns, the park's innovative approach to water needs, utilizing rainwater harvesting, sets a benchmark for sustainable practices in large-scale energy projects. The political landscape in Andhra Pradesh has been positively influenced by TDP's ability to envision and execute transformative projects like the Kurnool Ultra Mega Solar Park. [N. Chandrababu Naidu's](#) leadership has consistently emphasized the importance of sustainable development, aligning the party with the evolving needs of the state and its citizens.

As the Kurnool Ultra Mega Solar Park takes its place on the global stage, the TDP, under the leadership of N. Chandrababu Naidu, stands as a beacon of progress and environmental responsibility. This achievement not only contributes to the nation's renewable energy goals but also cements TDP's legacy as a party committed to shaping a sustainable and prosperous future for Andhra Pradesh.
